

CMAQ PROJECT

WESTERN PLACERVILLE INTERCHANGES PHASE 1B

Project Description

The Western Placerville Interchanges Phase 1B project includes local road and bicycle and pedestrian improvements to Fair Lane.

Current Project Status

At the March 6, 2014 meeting, EDCTC programmed Congestion Mitigation and Air Quality (CMAQ) Funds to the WPI Phase 1B project. Phase 1B includes local road improvements and construction of sidewalks and bike lanes on Fair Lane. The project will construct a sidewalk along the north side of Fair Lane between the County Government Center and the County Fair Plaza Commercial center. The project will also widen Fair Lane and construct Class II Bike Lanes on the same segment of Fair Lane in both directions. The project is currently in the right-of-way phase. The City of Placerville received the Request for Authorization for right-of-way funds and subsequently received the right-of-way certification. The City of Placerville received the Request for Authorization for construction funding in June 2015. Phase 1B was bid in fall 2015. The construction contract was awarded to Veerkamp Engineering at the City Council meeting on April 12, 2016. Construction was completed in December 2016.
