## INTRODUCTION

The Overall Work Program (OWP) is the primary management tool for the El Dorado County Transportation Commission (EDCTC) identifying the activities and a schedule of work for regional transportation planning in El Dorado County, excluding the Lake Tahoe basin. The Tahoe Basin, including the eastern portion of El Dorado County, is within the transportation Planning jurisdiction of the Tahoe Regional Planning Agency.

In general, the OWP consists of three types of activities: State-mandated regional transportation planning programs undertaken concurrently throughout the state by the designated Regional Transportation Planning Agencies, discretionary transportation planning programs that are specific to the EI Dorado County region and are oriented to solving problems unique to this planning region, and administration to support mandated and discretionary transportation planning programs.

The Fiscal Year 2022/23 OWP is a product of cooperative efforts by EDCTC's planning partners, including the City of Placerville, El Dorado County, El Dorado County Transit Authority, Sacramento Area Council of Governments (SACOG), and Caltrans. EDCTC also coordinates with the Shingle Springs Rancheria Tribal Government – such as in the development and implementation of the Regional Transportation Plan, Work Element (WE) 200. The specific projects and activities included in the OWP are consistent with the policies in the El Dorado County Regional Transportation Plan and the priorities for each State and Federal grant funding source.

This OWP has a number of important characteristics:

- EDCTC's primary objective is to implement a programming and funding strategy that will address the mobility needs of El Dorado County residents, businesses, and visitors. Of key importance is the Regional Transportation Plan (WE 200), which serves as a guiding force for transportation improvements over the next 20 years.
- The work program reflects a proactive approach to identifying future transportation project needs including: The Regional Transportation Plan (WE 200).
- The work program provides an emphasis on project delivery, including State Transportation Improvement Program (STIP) and Senate Bill 1 projects and projects funded with the Surface Transportation Block Grant Program (STBGP) and Congestion Mitigation and Air Quality (CMAQ) funds.
- Active Transportation Program and Transportation Development Act sources (Work Elements 120, 310, and 330).
- The work program reflects a multi-modal approach dividing planning resources between planning for transit, highways, aviation, and active transportation modes. (Work Elements 125, 130, 200, and 221).
- The work program reflects a strong commitment to EDCTC's public education and outreach, (WE 400) and Transportation Advocacy Program (WE 410).
- The work program reflects a comprehensive effort to partner with other agencies to develop solutions to transportation issues, and the need to participate in regional, state, and federal discussions regarding planning, funding, and delivering transportation projects: Intergovernmental Coordination (WE 110), Transit Administration (WE 120), El Dorado County Airport Land Use commission (WE 125), El Dorado County Freeway Service Patrol (WE 130), and Transit planning (WE 221).
- The work program has been developed in compliance with all state and federal planning requirements.

## BACKGROUND

The EDCTC was designated as the Regional Transportation Planning Agency (RTPA) for El Dorado County on July 23, 1975 (and as amended April 4, 1979) per Article 11, Chapter 2, Division 3, Title 3 of the Government Code and organized per Chapter 3, Title 21 of the California Administrative Code. This planning and programming authority does not include that portion of the County within the Tahoe Regional Planning Agency (TRPA) boundaries. TRPA is the RTPA for the Tahoe area. At the time of its formation, the EDCTC was staffed as a sub-department of the El Dorado County Department of Transportation. The EDCTC was administratively reorganized on August 13, 1993, when its administration was separated from the County.

## LOCATION

EDCTC represents the regional transportation planning interests for the western slope of El Dorado County and the City of Placerville. As of January 2021, the State Department of Finance has estimated the population of the western slope as: City of Placerville 10,888 and unincorporated El Dorado County 151,012, for a total western slope population of 161,900. The map on the following page identifies the western slope planning area.

## ORGANIZATION

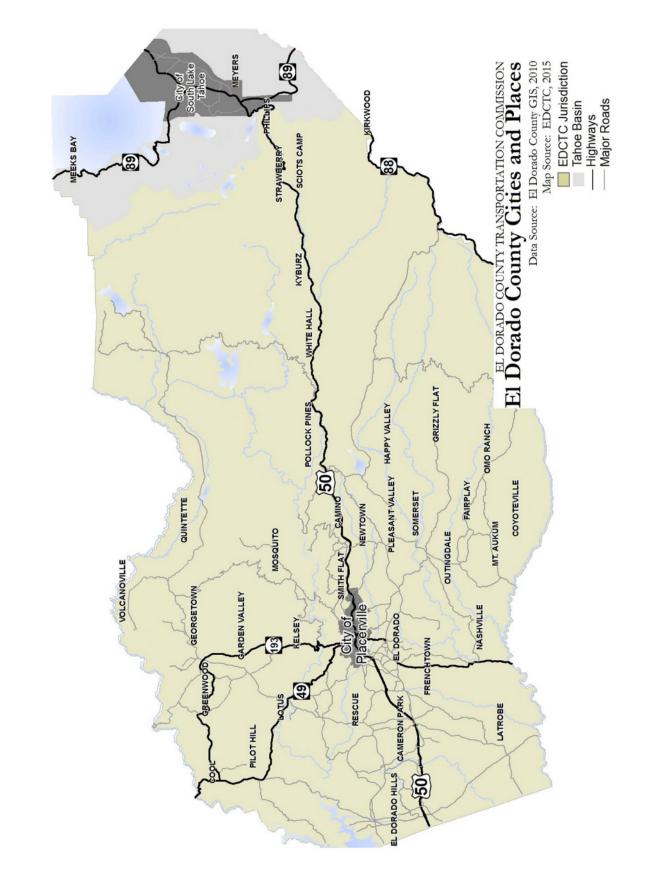

The EDCTC is responsible for coordinating regional transportation planning for the western slope of El Dorado County. The Commission consists of four members appointed by the El Dorado County Board of Supervisors and three members appointed by the City of Placerville. The District Director of Caltrans, District 3, or his designated representative, and a member of the South Lake Tahoe City Council are non-voting members of the Commission.

There are three committees that advise the Commission throughout the year: The Policy Advisory Team, Technical Advisory Committee, and the Social Services Transportation Advisory Council.

The Policy Advisory Team (PAT) provides input to the EDCTC Executive Director and Board on policy level issues related to financings, land use, and intergovernmental cooperation which impact the overall ability to plan, fund, and deliver transportation programs and projects. PAT members are responsible for ongoing communication and action taken within their respective organizations regarding coordination with EDCTC adopted policies and programs. The members include the EDCTC Executive Director, El Dorado County (EDC) Transit Authority Executive Director, City of Placerville Manager, the EDC Chief Administrative Officer, and the Air Pollution Control Officer for the EDC Air Quality Management District (AQMD). Meetings are held on a subject-driven basis.

The Technical Advisory Committee (TAC) provides technical guidance in the development of EDCTC's plans, programs, and agenda items. Meetings are generally held on a monthly basis. The TAC consists of staff level representatives from our partners: two Deputy Directors from the EDC Department of Transportation, representation from EDC Long-Range Planning, the City Engineer from the City of Placerville, a Planning and Marketing Manager from the EDC Transit Authority, a Project Manager and a Planner/Liaison from Caltrans District 3, a Planner/Liaison from SACOG, an Air Quality Engineer for the EDC AQMD, and all staff and the Executive Director from the EDCTC.

In accordance with TDA Statue 99238, EDCTC has established the Social Services Transportation Advisory Council, which is a diverse group of persons representing senior, disabled, and limitedmeans populations, as well as commuters. The Council may meet several times throughout the year to discuss transit needs in El Dorado County.

## **STAFFING**

The current staff consists of five full-time staff members: An Executive Director, two Senior Transportation Planners, an Administrative Services Officer, and an Executive Assistant/Secretary to the Commission. The Commission also contracts for general legal services, accounting oversight services, and computer and technical support services. The EDCTC Organizational Chart is on Page 5.

## **DUTIES AND RESPONSIBILITIES**

The duties and responsibilities of the Commission include the following:

- 1. Establishment of rules and regulations to provide for administering transportation planning and allocating the Transportation Development Act (TDA) Funds.
- 2. Receipt and approval of claims for TDA Funds
- 3. Conduct public meetings and hearings as required by law.
- 4. Administer the regional transportation planning process.
- 5. Every five years, update and adopt a Regional Transportation Plan (RTP).
- 6. Every two years adopt a Regional Transportation Improvement Program (RTIP).
- 7. Work with the Sacramento Area Council of Governments (SACOG) as the federally designated transportation planning agency for El Dorado County to determine air quality conformity of transportation plans, programs, and projects.
- 8. Oversee the delivery of State Transportation Improvement Program projects, pursuant to the requirements of Senate Bill 45 (Statues of 1997) and the April 1998 Memorandum of Understanding with Caltrans.
- 9. Coordinate, consult, and collaborate with the Shingle Springs Rancheria.
- 10. Conduct outreach efforts to the traditionally under-represented and under-served disadvantaged populations such as the elderly, disabled, low-income, and minority (i.e., African American, Hispanic, Asian American, American Indian/Alaskan Native, and Pacific Islander) community Groups.
- 11. Administer the El Dorado County Airport Land Use Commission (ALUC) and related airport land use planning activities.
- 12. Administer the El Dorado County Freeway Service Patrol (FSP).

## **AUTHORIZING DOCUMENTS**

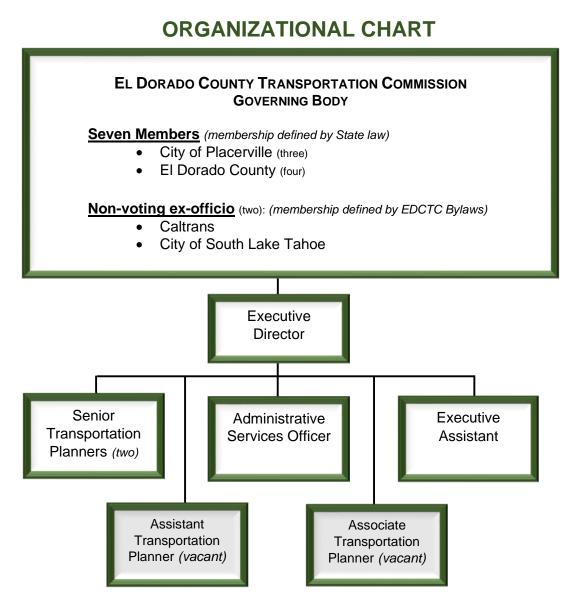

A Memorandum of Understanding (MOU) with Caltrans, executive April 12, 2012, replaced the previous agreement dated November 18, 1995. The MOU provides for inter-agency arrangements for transportation planning. A supplementary MOU regarding project delivery roles and responsibilities pursuant to Senate Bill 45 (Statues of 1997) was entered into in April 1998. In addition, an MOU with Caltrans executive November 19, 1998, addresses coordination of ongoing transportation planning and programs between EDCTC and Caltrans through the preparation of Project Study Reports under the Transportation Funding Act (Chapter 622, Statutes of 1997).

In 1991 the Federal Intermodal Surface Transportation Efficiency Act (ISTEA) provided a new definition of the geographic area of transportation planning concern to be included in a Metropolitan Planning Organization's (i.e., SACOG) planning process. This geographic area is considered the Metropolitan Planning Area and must encompass the areas designated as non-attainment for ozone and carbon monoxide under the Federal Clean Air Act. The areas defined by the ISTEA brought the entire geographic area represented by the EDCTC into SACOG's planning process. This process is limited to planning as it pertains to federally funded projects, projects that require federal approval, or state and locally funded projects that are deemed to be "regionally significant." SACOG's main purpose in this regard is to perform the air quality conformity analysis for local projects, meeting the

above criteria, which must be included in the Metropolitan Transportation Plan (Metropolitan Transportation Plan), Metropolitan Transportation Improvement Program (MTIP), and ultimately the statewide Federal Transportation Improvement Program (FTIP). SACOG defers to the EDCTC to plan and allocate funds for federally funded projects, federally approved projects, or "regionally significant" projects.

An MOU setting forth a continuing, comprehensive, and cooperative planning process which involved all interests in the Metropolitan Planning Area has been developed. The original MOU between the EDCTC, SACOG, and the state of California was approved by the Secretary of Business, Transportation, and Housing Agency on September 9, 1993. An amendment to the MOU was approved by the EDCTC and SACOG Executive Directors in December 2016.

AB 1204 (Huber/Gaines), an Act to amend Section 67951 of the Government Code, was approved by the Governor on September 25, 2010. AB 1204 provides for EDCTC to be comprised of four members appointed by the Board of Supervisors and two members appointed by each incorporated city in the portion of El Dorado County outside of the Tahoe Basin. However, if there is only one incorporated city, that city would appoint three members.

## FEDERAL PLANNING AND PROGRAMMING

SACOG is responsible for the development of the Metropolitan Transportation Plan and MTIP for the area covered by the ozone non-attainment area. This includes the region represented by the EDCTC. The EDCTC is responsible for the coordination of local projects that meet the Metropolitan Transportation Plan/MTIP criteria and presents SACOG with a list of "funding constrained" projects for inclusion in the Metropolitan Transportation Plan/MTIP. SACOG performs the air quality conformity analysis on these projects and, if the conformity criteria are met, these projects are advanced to the statewide FTIP.

#### AGENCY COORDINATION

EDCTC coordinates regional transportation planning activities with other public agencies, including El Dorado County, the City of Placerville, El Dorado Transit Authority, SACOG, the Tahoe Regional Planning Agency, the Tahoe Transportation District, Federal Highway Administrations (FHWA), the State Department of Transportation (Caltrans), the California Transportation Commission, adjacent RTPA's (Nevada County Transportation Commission, Placer County Transportation Planning Agency, and Amador County Transportation Commission), the Shingle Springs Rancheria Tribal Government, Bureau of Land Management, California State Parks, US Forest Service, and other interested groups.

#### **COMMUNITY PARTICIPATION**

EDCTC follows the public participation guidelines, as outlined by the Caltrans Public Participation Plan. EDCTC has adopted a Public Outreach Plan, which incorporates collaborative public participation efforts including Native American communities, organizations, groups, and individuals by soliciting input through various policy, technical, and public forums. EDCTC conducts public hearings regarding the development and adoption of the Regional Transportation Plan, the Regional Transportation Improvement Program, and the annual unmet transit needs hearing (pursuant to TDA Statute). Additional public hearings and workshops are held for individual planning projects. The community participation effort has been enhanced by non-traditional outreach methods, expansion of the agency website, and social media in an effort to provide citizens with greater access to agency documents and activities.

#### STATE PLANNING AND PROGRAMMING

EDCTC is the State-mandated Regional Transportation Planning Agency. As such, EDCTC prepares the Regional Transportation Plan (RTP) and the Regional Transportation Improvement Program (RTIP) for the Western Slope of El Dorado County (excluding the Tahoe Basin). EDCTC is also responsible for the administration of transportation Development Act (TDA) funds for El Dorado County jurisdictions, excluding the portion of the County within the Tahoe Regional Planning Agency boundaries.

All projects including those designated in the MTIP, must be in the RTP, and may be in the RTIP in order to receive consideration for funding allocated by the EDCTC as part of the State Transportation Improvement Program (STIP). The RTIP is the program from which projects are nominated to the STIP. The MTIP and RTIP essentially address two different funding sources: the MTIP programs federal funds and Regionally Significant Projects; the RTIP is the EDCTC nomination for STIP funds.

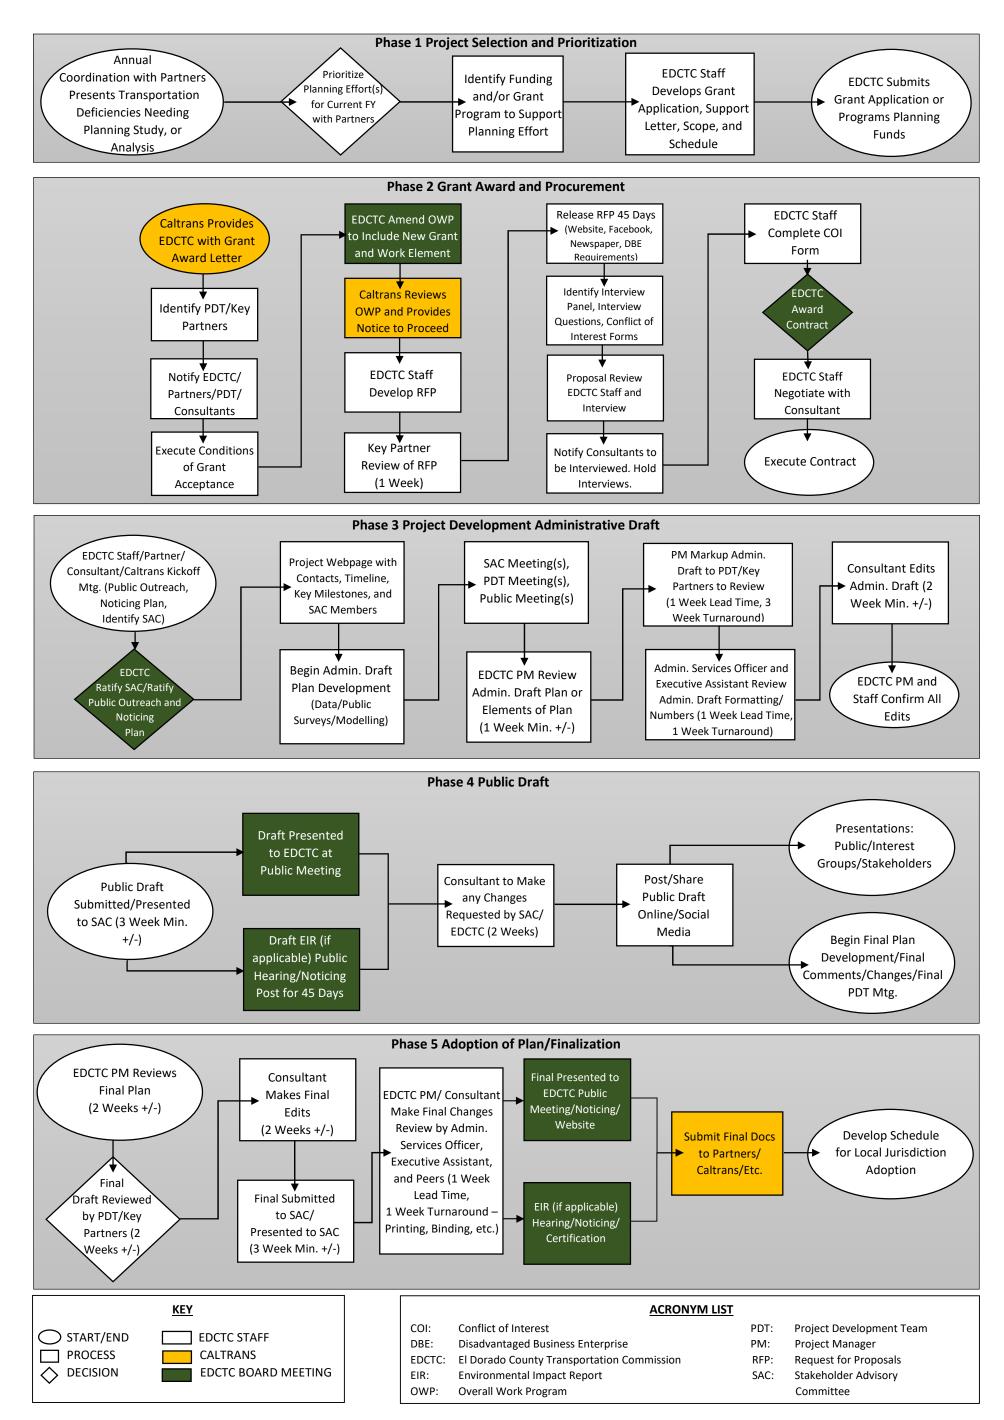

#### FEDERAL PLANNING FACTORS

Federal Planning Factors are issued by Congress to emphasize specific issues and must be identified in local planning documents. The Federal Planning Factors in Title 23 of the United States Code, section 134(f) are incorporated in the OWP. The ten planning factors are as follows:

## **Objective**

To coordinate the efforts of the Commission with Tribal, local, regional, and State agencies.

#### **Discussion**

This element provides the resources needed for the Commission's staff and Board members to participate in the efforts and activities of other agencies and groups necessary to develop the transportation plans and programs that represent the transportation needs of the citizens of El Dorado County. This participation is important in order to continue strong, inter-agency relationships within regional, state, and federal agencies to best ensure that the Commission's policies are implemented.

## TRANSPORTATION DEVELOPMENT ACT AND TRANSIT ADMINISTRATION

## **Objective**

To effectively administer the provisions of the Transportation Development Act (TDA), including receiving, reviewing, and approving claims for Local Transportation Funds, State Transit Assistance Funds, and State of Good Repair Funds for El Dorado County in the jurisdiction of the El Dorado County Transportation Commission (western slope)

To provide staff support to the EDCTC Social Services Transportation Advisory Council (SSTAC).

## **Discussion**

One fundamental responsibility of the EDCTC is to administer TDA funds. These funds operate public transit, construct bicycle and pedestrian facilities, and may be used for streets and roads purposes only after all unmet transit needs that are reasonable to meet have been addressed. Under TDA statute, EDCTC is responsible for preparing preliminary and final estimates of Local Transportation, State Transit Assistance Fund, and State of Good Repair Fund apportionments, conducting fiscal and performance audits, and transit coordination. EDCTC has appointed members to a SSTAC in accordance with Transportation Development Act Statue 99238.

## EL DORADO COUNTY AIRPORT LAND USE COMMISSION

## **Objectives**

To effectively administer the EI Dorado County Airport Land Use Commission (ALUC) and related aviation system planning activities

To provide technical assistance to the Placerville and Georgetown Airport Advisory Committees and the Cameron Park Airpark District.

To update and maintain the Airport Land Use Compatibility Plans for each of the three airports under the jurisdiction of the El Dorado County ALUC.

## **Discussion**

The EDCTC's planning activities include administration of the ALUC and related planning assistance to the Placerville Airport, Georgetown Airport, and Cameron Park Airpark Airport. EDCTC coordinates with the California Department of Transportation Division of Aeronautics for ALUC planning activities and funding. As the designated ALUC for El Dorado County, EDCTC is responsible for defining planning boundaries and setting standards for compatible land uses surrounding airports.

ALUCs have three primary functions under State law. The first is the adoption of land use standards that minimize the public's exposure to safety hazards and excessive levels of noise. The second is to prevent the encroachment of incompatible land uses around public-use airports. The third is the preparation of an Airport Land Use Compatibility Plan (ALUCP) for the area around each public use airport which defines compatible land uses for safety, density, height, and noise. Guidance for ALUCP development is provided in the 2011 California Airport Land Use Planning Handbook. The ALUC's third function is consistency determinations for proposed projects that are incompatible with adopted ALUCP recommendations.

## EL DORADO COUNTY FREEWAY SERVICE PATROL

## **Objective**

To manage and oversee the operation of a Freeway Service Patrol (FSP) along US 50 within El Dorado County.

#### **Discussion**

This work element includes the activities necessary to implement a Freeway Service Patrol program along US 50 east of the El Dorado County/Sacramento County line to relieve congestion, assist the motoring public, and provide air quality improvements.

US 50 serves as the primary transportation corridor for local, regional, interregional, commuter, and goods movement traffic throughout EI Dorado County. US 50 experiences traffic congestion during peak periods when traffic volumes approach highway capacity. Traffic congestion along US 50 reduces throughput and mobility, increases air pollution, and creates stress on drivers. Sixty percent of delay hours are caused by disabled vehicles and accidents. While these types of traffic incidents are random events, they cause the most significant delays when roadways are approaching capacity. The purpose of the FSP program is to relieve the most heavily congested segments of US 50 in El Dorado County by assisting disabled vehicles and the motoring public.

## MULTI-MODAL TRANSPORTATION PLANNING

## **REGIONAL TRANSPORTATION PLAN**

## **Objective**

To implement the EDCTC Regional Transportation Plan (RTP) and coordinate with partner agencies on the development and amendment of the El Dorado County components of SACOG's Metropolitan Transportation Plan (MTP).

## **Discussion**

The RTP and MTP are required by state and federal law (respectively) and provide the means for EDCTC and the larger six-county SACOG region to establish transportation goals, policies, and funding strategies, and to identify projects needing to be implemented over a 20-year time horizon. The current EDCTC RTP was adopted in November 2020, and the SACOG MTP/Sustainable Communities Strategy (SCS) for 2036 was adopted in November 2019.

EDCTC is required to update the RTP every five years in compliance with guidelines established by the California Transportation Commission. The next EDCTC RTP will be due in 2025. The RTP is the primary planning document produced by EDCTC and provides the policy basis for all major transportation infrastructure funding programs within the jurisdiction of the Commission.

On a statewide basis, projects and programs must be listed in the RTP, MTP, and the Metropolitan Transportation Improvement Program (MTIP) if cities, counties, and transit operators are to be eligible for federal funds for capital improvements. Also, any capacity-increasing capital projects are required to meet air quality conformity standards as outlined by the federal Environmental Protection Agency and implemented by SACOG. EDCTC annually dedicates 2% of its Local Transportation Fund for the federal planning, programming, and air quality conformity activities conducted by SACOG. SACOG activities are described in Appendix B. The payment to SACOG is funded with Local Transportation Funds.

## Previous Work Activities – FY 2021/22

## TRANSIT PLANNING

## **Objectives**

To coordinate with the El Dorado County Transit Authority (EDCTA) on the development and implementation of transit-related planning efforts.

To coordinate with the EDCTA on the implementation of state and federal grant programs that are not administered through the Transportation Development Act.

#### **Discussion**

EDCTC provides application and programming support to the EDCTA for Federal Transit Administration (FTA) 5310, 5307, and 5311 grant funding programs for operations and capital expenses. EDCTC also provides application and programming assistance to the EDCTA for the PTMISEA and California Transit Security Grant Programs. EDCTC supports EDCTA through the development of planning grant applications, through programs such as the Sustainable Communities – Strategic Partnership program (FHWA State Planning and Research Part 1 funds and FTA Section 5304) and is responsible for associated reporting documents. EDCTC also prepares required amendments to the Coordinated Public Transit-Human Services Transportation Plan, and Short- and Long-Range Transit plans. In addition, EDCTC coordinates transit-related activities and provides staff support to the EDCTC SSTAC.

#### Work Activities

- 1. Prepare required amendments to the Coordinated Public Transit-Human Services Transportation Plans and Short- and Long-Range Transit Plan ......as needed
- 2. Prepare agendas and staff reports for TAC, SSTAC, Commission meetings, and any other public participation group formed by EDCTC to review transit projects or programs .....as needed

## 50 CORRIDOR SYSTEM USER ANALYSIS, INVESTMENT STRATEGY AND ACCESS CONTROL ACTION PLAN

#### **Objectives**

In order to address long term problems associated with limited data availability and a need for a comprehensive investment strategy for the 50 Corridor EDCTC, in partnership with local and regional partners and Caltrans District 3, will conduct system user analysis, identify, and assess innovative pricing and investment strategies for the US 50 Corridor. The project will also perform data collection and develop traffic management strategies to prepare an access control action plan for future deployment of a pilot project along US 50 within the City of Placerville. The system user travel analysis will include comprehensive circulation and traffic data along US 50 to update and fill existing data gaps. Innovative pricing and investment strategies will include tolling, pricing, and others to advance the efforts of Caltrans' US 50 Managed Lanes Feasibility Study. The access control action plan within the City of Placerville will conduct a risk assessment and evaluate the circulation impacts and procedures necessary for implementation of an innovative pilot project to close off local access to US 50 at the three signalized intersections. The access control plan will outline how a closure will be conducted during highly congested periods, as informed by the aforementioned system user travel analysis, to determine the effectiveness of such a strategy and identify potential lower cost congestion improvements.

#### **Discussion**

US 50 is the most significant and highly utilized transportation corridor in El Dorado County, providing east-west connections to Sacramento County, the State of Nevada, and east across the United States. It is the primary east west route for interregional tourism travel into the Lake Tahoe Basin. US 50 is also the major commute route to employment locations in the greater Sacramento area and supports goods movement and agriculture in El Dorado County and the Lake Tahoe Basin. As the primary transportation corridor extending through El Dorado County, US 50 serves the County's major population centers, including El Dorado Hills, Cameron Park, Diamond Springs, Placerville, Camino, and South Lake Tahoe. Peak month Average Daily Traffic (ADT) ranges from 106,000 at the west end of the County at Latrobe Road to 16,800 at the junction of SR 89 in South Lake Tahoe (2017).

## SR 49 AMERICAN RIVER CONFLUENCE STUDY

#### **Objective**

To collaborate with Caltrans and other local and regional partners to complete the SR 49 American River Confluence Study.

#### **Discussion**

This study will be a collaborative effort between Caltrans, EDCTC, El Dorado County, State Parks, PCTPA, and Placer County. The study will focus on a two-lane segment of State Route (SR) 49 from the Community of Cool in El Dorado County to the City of Auburn in Placer County. This segment of SR 49 traverses winding foothill terrain and crosses the American River directly downstream from the confluence of the North and Middle Forks, an interregional recreation destination. This segment provides access to the Auburn State Recreation Area, river recreation, and countless equestrian, hiking, and cycling opportunities. During peak season, thousands of daily visitors enjoy the vast opportunities in this part of Northern California.

The Study area will span SR 49 from the Community of Cool (Cool) to the Confluence of the South and Middle Forks of the American River (Auburn State Park) and into the City of Auburn (Auburn). The final report will promote cohesive multi-modal use, parking strategies, consideration of increasing recreational traffic congestion, usage of the Auburn State Park and recreation areas, and potential conflicts with interregional and tractor trailer traffic. The Study is needed to develop and implement strategies to ensure that this predominant recreation area along SR 49 is safe and accessible for multi-modal users. It aims to provide necessary information and guidance for informed investments, providing a framework for recreational traffic management improvements along SR 49 and oversight strategies for a public private transit shuttle partnership.

## GREATER PLACERVILLE WILDFIRE EVACUATION PREPAREDNESS, COMMUNITY SAFETY, AND RESILIENCY PLAN

#### **Objective**

To deliver a wildfire evacuation preparedness plan for the Greater Placerville area to address public health and safety and the surrounding community's growing climate vulnerability to the risk of wildfire.

#### **Discussion**

Due to the impacts of climate change, wildfire intensity continues to increase in California with over half the State's twenty largest and most destructive wildfires occurring in the last ten years. The 2018 Camp Fire destroyed the town of Paradise and brought to the forefront the extreme wildfire risk faced by communities across California, including the Greater Placerville area.

To address the impacts of climate change and the growing climate vulnerability to the risk of wildfire, the Greater Placerville Wildfire Evacuation Preparedness, Community Safety, and Resiliency Plan (project) will deliver a wildfire evacuation preparedness plan for the Greater Placerville area in El Dorado County. The project area includes the U.S. Highway 50 corridor from Pollock Pines through the City of Placerville and the principal and minor arterials and major and minor collectors in the project area.

One of the first tasks of the project will be to produce an Existing Conditions Report that will characterize wildfire risk in the project area, including identification of vulnerabilities in the transportation, communication, and water networks that lead to catastrophic failure during a wildfire and result in failed evacuation and loss of life. Another task will identify the infrastructure improvements necessary to make the transportation, communication, and water networks more resilient and add redundancy to avoid catastrophic failure. The project will utilize innovative modeling and simulations of the interactions of fire, traffic, communications, water network and human behavior during a wildfire event to identify the most efficient evacuation routes (depending on the location of the fire and weather conditions such as wind that influence the rate and direction of spread) to safely evacuate the entire community, including vulnerable human and domestic animal populations. The project will utilize best community engagement practices to actively engage all members of the public, including disadvantaged, senior, and other vulnerable populations to ensure they have an active hand in the decision- making process that results in an evacuation plan that address the needs of a diverse community and its members.

## PROJECT DELIVERY AND PROGRAMMING

### WORK ELEMENT 300

### STATE AND FEDERAL PROGRAMMING

### **Objectives**

To select and prioritize projects and program funds available through the State Transportation improvement Program (STIP), Road Repair and Accountability Act of 2017 (Senate Bill 1), the Regional Transportation Improvement Program (RTIP), and Interregional Transportation Improvement Program (ITIP).

To select and prioritize projects and program funds available through the federal transportation bill, including Surface Transportation Block Grant Program (STBGP), Highway Infrastructure Program (HIP), and Congestion Mitigation and Air Quality (CMAQ) funds.

To ensure that priority projects have Project Initiation Documents completed prior to programming.

### **Discussion**

As the statutorily designated Regional Transportation Planning Agency (RTPA) for El Dorado County, EDCTC is responsible for selecting and prioritizing projects to use available state and federal transportation funds including those from the State Transportation Improvement Program (STIP), Road Repair and Accountability Act of 2017 (Senate Bill 1), and the Federal Bill. These funds, along with local funds, and funds available to Caltrans, are used to implement the projects identified in the Regional Transportation Plan (RTP), and SACOG MTP (MTP).

An important responsibility for EDCTC is to program the RTIP funds allocated to EI Dorado County and the City of Placerville. EDCTC also advocates for the allocation of Statewide ITIP funds for shared projects on state highways within EI Dorado County. Once these selections are made, EDCTC will ensure that project requests in the RTIP and ITIP are included in the STIP.

### **Work Activities**

### WORK ELEMENT 310

### TRANSPORTATION PROJECT DELIVERY AND OVERSIGHT

### **Objectives**

To ensure that projects using federal, state, and local grant funds use those funds in a timely and cost-effective manner.

To coordinate with local and Tribal jurisdictions to develop projects that meet specific federal program guidelines.

### **Discussion**

This element includes the activities necessary to ensure that projects funded by EDCTC are implemented on time and on budget. These include projects funded from the State Transportation Improvement Program (STIP); Senate Bill 1, Road Improvement and Repair Act of 2017 (SB1); Active Transportation Program (ATP); state bond programs; and from the federal programs, such as the Surface Transportation Block Grant Program (STBGP), Highway Infrastructure Program (HIP), and Congestion Mitigation and Air Quality (CMAQ) programs.

Chapter 622 (Statues of 1997) significantly altered the responsibilities of both EDCTC and the State of California for the delivery and oversight of projects programmed in the state Transportation Improvement Program. Pursuant to this new legislation, a "Memorandum of Understanding Regarding Project Delivery of Regional Improvement Program Projects on State Highways" was entered into between EDCTC and Caltrans effective April 17, 2009, to define new roles and responsibilities. In particular, the EDCTC is responsible for monitoring project support costs for State Transportation Improvement Program projects. In addition, the Commission is responsible for monitoring project delivery schedules to ensure that projects meet state and federal timely-use-of-funds requirements.

Timely-use-of-funds requirements, implemented under AB 1012, also apply to delivery of STBGP, ATP, SB1, HIP, and CMAQ projects. As a result, EDCTC monitors all programmed projects, maintains a database of project status, and works with project sponsors to ensure that all timelines are met. If necessary, EDCTC will work with project sponsors to reprogram funds to ensure that no funding is lost to the region.

### Work Activities

1.	Monitor STIP, STBGP, ATP, SB1, HIP, and CMAQ project implementation including project support and capital costs
2.	Attend Project Development Team and coordination meetings with implementing jurisdictions to discuss the status of projects and to resolve project delivery issues consistent with timely use of funds requirements
3.	Develop and maintain STIP, STBGP, ATP, SB1 HIP and CMAQ project status database
4. 5.	Coordinate with SACOG on federal funding program opportunities and requirements as needed Attend other coordination meetings with Caltrans to discuss changes in the scope, budget, and/or schedule of STIP, STBGP, ATP, SB1, HIP, and CMAQ projects
6.	Work with Caltrans to resolve issues consistent with the terms of the Memorandum of Understanding

### WORK ELEMENT 330

### **ACTIVE AND ALTERNATIVE TRANSPORTATION PROGRAMS**

### **Objective**

To promote projects that will maintain, improve, and expand public transit systems and active and other alternative modes of transportation, such as carpooling, ridesharing, bicycling, and walking. Additional measures include compressed work weeks and telecommuting.

### **Discussion**

This work element includes the activities necessary to support and promote active and alternative transportation programs by reducing dependence on single-occupant vehicles. These efforts are designed to maximize the effectiveness of existing transportation systems, reduce traffic congestion, reduce or eliminate the need for new and expensive transportation infrastructure, support the local and regional economy, and improve air quality.

The El Dorado County Regional Transportation Plan 2020-2040 includes projects in the shortand long-term to advance the use of Transportation Demand Management (TDM) in a thorough, cost-effect manner.

### Work Activities

### PUBLIC INFORMATION, OUTREACH, AND ADVOCACY

38

### WORK ELEMENT 400

### PUBLIC EDUCATION AND OUTREACH

### **Objective**

To support EDCTC's project delivery, planning, and consensus-building programs by providing information on transportation and related issues and by seeking input on these issues from interested parties.

This effort includes responding to information requests from tribal governments, local agencies, the general public, and news media, fostering more public awareness of EDCTC and its efforts, and maintaining the EDCTC website. The EDCTC has incorporated Facebook social media to promote outreach and community interest on a contemporary level.

### **Discussion**

The ability of EDCTC to continue successfully implementing priority projects will have a significant impact on the future quality of life for the area's residents, employers, employees, and visitors. This project includes public outreach and marketing efforts, some of which are aimed at the general public and others at specific constituencies, such as elected officials, neighborhood associations, special interest advocacy groups, or other groups which have not traditionally participated in EDCTC's planning efforts. Products from this project will maintain uniformity in the visual aspect of our outreach program.

### Previous Work Activities – FY 2021/22

- 1. Promoted iWalk-to-School Day and May is Bike Month.....October 2021 and May 2022
- 2. Posted information and meeting dates for EDCTC grant funded projects..... July 2021-June 2022

### Current Work Activities – FY 2022/23

### WORK ELEMENT 410

### TRANSPORTATION ADVOCACY PROGRAM

### **Objective**

To obtain discretionary state and federal transportation funds for highway and street improvements. transit operations, active, and alternative transportation improvements, and other miscellaneous transportation projects, programs, and plans and to participate in the legislative process to benefit El Dorado County and the City of Placerville transportation interests.

### Discussion

EDCTC has demonstrated an aggressive and successful approach to helping to solve the region's transportation problems for several years. The ability of EDCTC to continue successfully implementing priority projects will have a significant impact on the future quality of life for the area's residents, employers, employees, and visitors. Relying on formula funding alone to implement priority projects, it will take more than 20 years to deliver the necessary maintenance and capital investments that will enhance and sustain the desired quality of life and economy. In order to continue improving upon very challenging state and funding forecasts, EDCTC must aggressively pursue discretionary funding from the state and federal government. To accomplish this EDCTC needs to continue to elevate the importance of the transportation system within and through El Dorado County as not only the lifeline support for the resident population businesses, but also as a unique and significant interregional system connecting the greater San Francisco Bay Area mega-region to the Sierra, Lake Tahoe, and beyond.

> Local Transportation Funds (LTF) are allocated to the Commission for Transportation Development Act (TDA) administration and planning activities.

> Rural Planning Assistance (RPA) Funds are State funds provided by Caltrans for regional transportation planning activities. 25% may be carried-over to future years. RPA funds do not require matching funds. Rural Planning Assistance Funds may not be used for Transit Administration or Advocacy. State Transportation Improvement Program (STIP) Planning, Programming and Monitoring Funds are State funds that must be used within two years of the allocation.

> Sustainable Communities grants are funded by the Federal Transit Administration (FTA Section 5304) and the State Highway Account through Caltrans for specific projects. These funds require a non-Federal, local match of 11.47% and must be used within two years of encumbrance.

> Surface Transportation Block Grant Program (STBGP) exchange funds are State funds received by EDCTC in lieu of Federal funds. These funds can be used for most transportation purposes.

> Freeway Service Patrol Funds are funded by a \$1.00 charge on DMV registration fees and Caltrans Freeway Service Patrol funding. These funds are for the Freeway Service Patrol Program in the designated area of the County, from the Sacramento/El Dorado County Line to Greenstone.

### SUMMARY OF SACOG PLANNING ACTIVITIES IN EL DORADO COUNTY

The Sacramento Area Council of Governments (SACOG), as the federally designated Metropolitan Planning Organization, in cooperation with the State, is responsible for federal transportation Planning and programming in the six-county region, which includes the EDCTC region. These responsibilities include the development and adoption of the Metropolitan Transportation Plan (MTP), the Metropolitan Transportation Improvement Program (MTIP), and making air quality conformity finding on these documents as required under the Federal Clean Air Act.

SACOG assists EDCTC in other transportation planning activities as needed and has a designated liaison to participate in and attend meetings. SACOG also coordinates with EDCTC on each of the OWP Work Elements as a member of the technical advisory committees and/or project development teams to develop policy recommendations and technical tools to help implement local and regional objectives for enhancing urban and rural economies, a complete multi-modal network recreation, quality of life, and regional sustainability.

EDCTC contributes an amount equal to 2% of the Local Transportation Fund apportionment to El Dorado County jurisdictions within the Designated Ozone Non-Attainment Area as EDCTC's share of the cost of developing the MTP, MTIP, and air quality conformity funding.

Name of Application: El Dorado County Transportation Commission

Name and Relationship of Authorized Representative: Woodrow Deloria, Executive Director

BY SIGNING BELOW, on behalf of the Applicant, I declare that it has duly authorized me to make these Certifications and Assurances and bind its compliance. Thus, it agrees to comply with all federal laws, regulations, and requirements, follow applicable federal guidance, and comply with the Certifications and Assurances as indicated on the foregoing page applicable to each application its Authorized Representative makes to the Federal Transit Administration (FTA) in the federal fiscal year, irrespective of whether the individual that acted on his or her Applicant's behalf continues to represent it.

FTA intents that the Certifications and Assurances the Applicant selects on the other side of this document should apply to each Award for which it now seeks or may later seek federal assistance to be awarded by FTA during the federal fiscal year.

The Applicant affirms the truthfulness and accuracy of the Certifications and Assurances it has selected in the statements submitted with this document and any other submission made to FTA, and acknowledges that the Program Fraud Civil Remedies Act of 1986, 31 U.S.C. § 3801 et seq., and implementing U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR part 31, apply to any certification, assurance or submission made to FTA. The criminal provisions of 18 U.S.C. § 1001 apply to any certification, assurance, or submission made in connection with a federal public transportation program authorized by 49 U.S.C. Chapter 53 or any other statute.

In signing this document, I declare under penalties of perjury that the foregoing Certifications and Assurances, and any other statements made by me on behalf of the Applicant are true and accurate.

Name: DeeAnne Gillick, Sloan Sakai Yeung & Wong LLP Attorney for Applicant

Each Applicant for federal assistance to be awarded by FTA must provide an Affirmation of Applicant's Attorney pertaining to the Applicant's legal capacity. The Applicant may enter its electronic signature in lieu of the Attorney's signature within TrAMS, provided the Applicant has on file and uploaded to TrAMS this hard-copy Affirmation, signed by the attorney and dated this federal fiscal year.

### **APPENDIX E**

### Fiscal Year 2022/23 California Department of Transportation Debarment and Suspension Certification

As required by U.S. DOT regulations on government-wide Debarment and Suspension (Nonprocurement), 49 CFR 29.100:

- 1) The Applicant certifies, to the best of its knowledge and belief, that it and its contractors' subcontractors, and subrecipients:
  - i. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
  - ii. Have not, within the three (3) year period preceding this certification, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain or performing a public (Federal, state, or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - iii. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, state, or local) with commission of any of the offenses listed in subparagraph (1)(b) of this certification; and
  - iv. Have not, within the three (3) year period preceding this certification, had one or more public transactions (Federal, state, and local) terminated for cause or default.
- The Applicant also certifies that, if Applicant later becomes aware of any information contradicting the statements of paragraph (1) above, it will promptly provide that information to the State.
- 3) If the Applicant is unable to certify to all statements in paragraphs (1) and (2) of this certification, through those means available to Applicant, including the General Services Administration's *Excluded Parties List System (EPLS)*, Applicant shall indicate so in its applications, or in the transmittal letter or message accompanying its annual certifications and assurances, and will provide a written explanation to the State.
